A2Z Design Company

Dear Sir or Madam,

I'm writing to discuss the position you have available at A2Z Design Company for a Graphic Designer. I just graduated college from Texas State Technical College with an Associate of Applied Science in Digital Media Design, I have experience building brands from the ground up and using Adobe Creative Cloud Suite. My experience as a Graphic Designer has helped me develop my communication skills, learn how to cater my work to different clients, and broaden my skill set to include motion graphics and animations.

While I enjoy the clients I currently work with as a freelance Graphic Designer, I'm looking to collaborate with a team of other creatives in an established agency setting. In the job description listed on the A2Z Design Company website, you mentioned that you're looking for a candidate who has experience working with the Adobe Creative Cloud Suite, managing ongoing creative campaigns for multiple clients, and developing comprehensive brand guidelines.

I'm passionate about developing my creative skill set and providing my clients with a wonderful experience. I also pride myself on maintaining a professional demeanor and responding to clients in a timely manner. Thank you for taking the time to review my application materials. I look forward to hearing from you and learning more about this opportunity. If you have any questions or need more information, please feel free to contact me by phone or email.

Best Regards,

Michael Geiger
